

King David Campus, Liverpool

Project

King David Campus is a mixed voluntary aided Jewish secondary school with a comprehensive intake. It exists to provide a Jewish, high quality academic and secular education for Jewish pupils as well as pupils from other faiths in the locality.

Working in partnership with Vinci Construction UK, we were requested to specify a heavy-duty roller blinds for classrooms and motorised roller blinds for high access windows for the indoor sports hall

Solution

Given the heavy-duty wear and tear of busy classrooms, Perfect Blinds specified and installed 30 Bandalux Box Roller blinds in both chain-operated and motorised variants.

We also installed 27 Box Roller blinds in the indoor sports hall with motorisation due to their high reach; allowing all sun shades to be operated either independently or together. The project was completed on time and within budget.

Benefits

- Effective control of UV solar glare
- Robust, easy to operate mechanism
- Same fabric used throughout for uniform look
- Motorisation provides full access to privacy and shade for high reach windows.

Products / Details

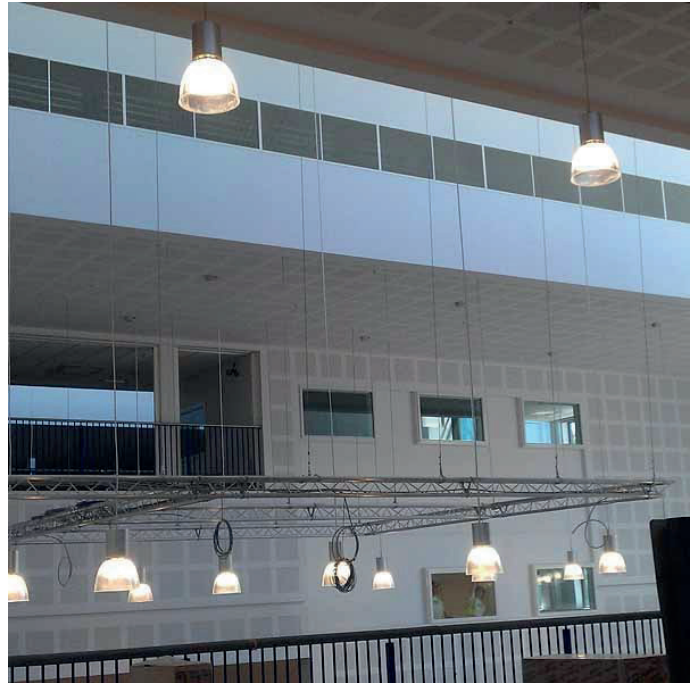

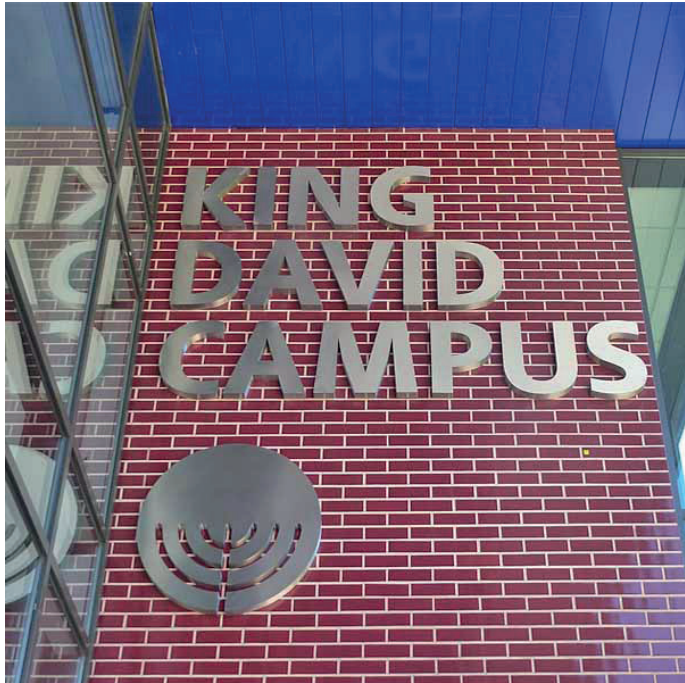

- Bandalux "B-Box" Cassette Roller Blinds with high-quality stainless-steel box frame.
- Provides easy maintenance, with access to interior of box.
- Chain and motor operation.
- All blinds fitted with Bandalux Polyscreen solar protective fabric
