

Titanic Hotel, Liverpool

Project

The Titanic Hotel at Stanley Docks is history in the making. Its own impressive history swirls through the building. You know this is not just somewhere special to stay but an attraction in itself.

Perfect Blinds were requested to specify and install 6-metre high motorised window blinds for the hotel's main function and event rooms. The goal was to provide an "on-demand" blackout environment for prestigious events including X-Factor, Strictly Come Dancing and large organisations to be hosted night or day.

Solution

We specified and installed a Bandalux Box Cassette Roller blinds with motorisation, allowing all shades to be operated independently or together.

We specified 6-metre tall Bandalux Polyscreen fabric because of its durability and that it can provide a consistent drop at extreme heights.

Fabric was full blackout with 0% openness, and we also designed and fitted side-guides to ensure zero light gaps and the ultimate blackout experience. The project was completed on time and within budget.

Benefits

- Stunning looks for a world-class hotel
- Turn day into night, "on demand"
- Maximum privacy and blackout control
- Maximum UV solar protection
- Easy maintenance, with access to interior of box

Products / Details

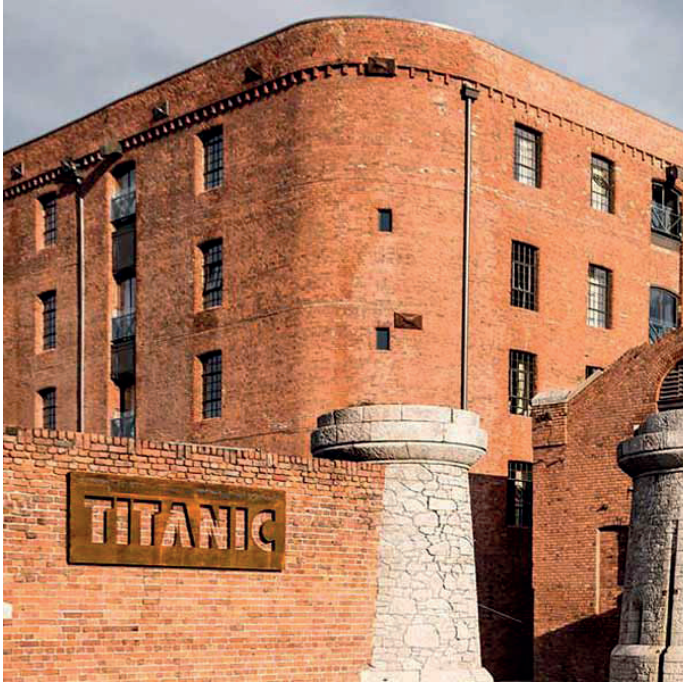

- Bandalux Box Full-Cassette Roller blinds
- Polyscreen blackout fabric with 0% openness
- 6-metre full-height window solution
- Full motorisation and remote control
